dissertation language english abstract rapidly developing technologies are providing new and very powerful means to sort combine and analyse data this data exists in a networked environment thus personal information can be collected and processed on any computer on the net and is at least in theory accessible by every computer on the net the development of the internet has made it possible to transfer this data around the globe at the click of a mouse fresh

business models such as cloud computing the newest driver to illustrate the speed and breadth of the environment allow this data to be processed across national borders on a routine basis individuals and companies are increasingly immersed in social networking search technologies online commerce and many other activities in which information about an individual is sent worldwide from one point to another these activities became more and more borderless because the internet as an open window to the world blurs the lines between public and private space firstly since globalisation and the outsourcing of economic actors entrain an ever growing exchange of personal data additionally because of the security pressure in the name of the legitimate fight against terrorism opens the access to a significant number of data to an increasing number of public authorities and finally this is due the tools of the digital society accompany everyone at each stage of life by leaving permanently individual and borderless traces in both space and time therefore calls of both the public and private sectors for an international legal framework for privacy and data protection have become louder privacy commissioners appealed to the united nations to prepare a binding legal instrument which clearly sets out in detail the rights to data protection and privacy as enforceable human right this appeal was repeated in 2008 at the 30th international conference held in strasbourg and at the 31th conference 2009 in madrid through the draft of a global legal instrument on data protection with a view to submitting it to the united nations but also companies such as google and facebook have come under continuous pressure from governments and citizens to reform data use of data could these calls possibly be best achieved by an international framework for data protection rather than a collection of national or regional approaches there are no secret books you can understand the law the dworkin has written a masterful explanation of how the anglo american legal system works and on what principles it is grounded law s empire is a full length presentation of his theory of law that will be studied and debated for years to come the united states code is the official codification of the general and permanent laws of the united states of america the code was first published in 1926 and a new edition of the code has been published every six years since 1934 the 2012 edition of the code incorporates laws enacted through the one hundred twelfth congress second session the last of which was signed by the president on january 15 2013 it does not include laws of the one hundred thirteenth congress first session enacted between january 2 2013 the date it convened and january 15 2013 by statutory authority this edition may be cited u s c 2012 ed as adopted in 1926 the code established prima facie the general and permanent laws of the united states the underlying statutes reprinted in the code remained in effect and controlled over the code in case of any discrepancy in 1947 congress began enacting individual titles of the code into positive law when a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law currently 26 of the 51 titles in the code have been so enacted these are identified in the table of titles near the beginning of each volume the law revision counsel of the house of representatives continues to prepare legislation pursuant to 2 u s c 285b to enact the remainder of the code on a title by title basis into positive law the 2012 edition of the code was prepared and published under the supervision of ralph v seep law revision counsel grateful acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the office of the law revision counsel and the government printing office preface a practical approach to corporate ip
